NOTICE

Calcutta-1, the 29th September 1966

Policy for export of Ferrous Scrap during October 1966 to March 1967 period.

No. I&E/IV/17-2/66—1. During the licensing period October 1966 to March 1967 only the Metal Scrap Trade Corporation Ltd. will continue to export ferrous scrap. But such exports will be exempted from export licence.

2. Ferrous Scrap of the following categories will be permitted for export :—

(I) No. 1 quality Sheet Cuttings :

Export will be allowed without any quantitative restrictions subject to Metal & Scrap Trade Corporation furnishing certificate guaranteeing adequate supplies of this category of scrap to the satisfaction of indigenous furnace owners.

(II) Borings & Turnings :

Exports of steel borings and turnings will be allowed without any quantitative restrictions subject to Metal & Scrap Trade Corporation furnishing certificate guaranteeing adequate supplies of this category of scrap to the satisfaction of indigenous furnace owners. In addition, oxidised and inferior quality of borings and turnings and cast iron borings and turnings will be allowed freely.

(III) Tool Steel Scrap :

Export of Tool Steel Scrap will be permitted for export without any quantitative restrictions subject to the production of analysis report at the time of shipment to the satisfaction of the Customs authorities at the ports that the scrap sought to be exported falls within this category.

(IV) Nos. 2, 2A & 3 quality Sheet Cuttings :

(V) Detinned Scrap.

(VI) Steel Skull Scrap.

(VII) Iron Skull Scrap.

(VIII) Mill Scale Scrap.

(IX) Other varieties of scrap.

Export of such varieties as high silicon sheet cuttings chilled rolls, etc., which cannot be utilised in the country will be permitted.

3. Export of Heavy melting scrap will not be allowed.

4. The floor prices for export of the items of Scrap, referred to above, will be as prescribed by Government from time to time.

S. SAHAY

Iron & Steel Controller

DIRECTORATE GENERAL OF HEALTH SERVICES

New Delhi, the 27th September 1966

No. 1-77/66-Adm-II—Dr. G. S. Chakravarty, Assistant Airport Health Officer, Bombay Airport was granted earned leave for 21 days with effect from the 20-8-66 to the 9-9-66 with permission to suffix the closed holidays on the 10-9-66 (Second Saturday) and the 11-9-66 (Sunday).

2. On the expiry of leave, Dr. Chakravarty resumed charge of the post of Asstt. Air Port Health Officer, Bombay Airport on the forenoon of the 12-9-66.

The 28th September 1966

No. 29-33/66-P—The Director General of Health Services hereby appoints Dr. (Mrs.) S. Narang (nee Miss S. Chowdhry) as Assistant Surgeon, Grade I, in the Central Government Health Scheme with effect from the forenoon of the 6th June, 1966, on a purely temporary basis until further orders.

This Directorate's Notification No. 29-33/66-P, dated 22-6-1966 may be treated as cancelled.

No. 29-45/66-P—The Director General of Health Services appointed on a purely temporary basis Dr. D. C. Mishra as Assistant Surgeon, Grade I, in the C.G.H. Scheme with effect from the afternoon of the 22nd June, 1966 to the 23rd July, 1966.

The 30th September 1966

No. 29-76/66-P—The Director General of Health Services hereby appoints Dr. S. M. Seth as Assistant Surgeon, Grade I, in the Central Govt. Health Scheme, with effect from the forenoon of the 23rd August, 1966, on a purely temporary basis until further orders.

RAMESH BAHADUR

Deputy Director (Administration)

GEOLOGICAL SURVEY OF INDIA

Calcutta-13, the 28th September 1966

No. 9855K/2222(KKS)/19—Shri Krishna Kumar Sinha, M.Sc., A.I.S.M., is appointed as an Assistant Geologist in the Geological Survey of India on pay according to rules in the scale of Rs. 350-25-500-30-590-EB-30-800-EB-30-830-35-900/- in a temporary capacity with effect from the forenoon of the 20th August 1966 until further orders.

G. C. CHATERJI

Director General

ATOMIC ENERGY ESTABLISHMENT, TROMBAY

(Personnel Division)

Bombay-1, the 22nd September 1966

No. PA/75(5)/65-R(IV)—The Controller, Atomic Energy Establishment, Trombay, appoints Shri M. S. Gangnaik to officiate as Assistant Stores Officer in the Atomic Energy Establishment, Trombay, in a temporary capacity, with effect from the forenoon of July 19, 1966, until further orders.

S. P. MHATRE

Recruitment Officer

Bombay-5, the 23rd September 1966

No. PA/O.F(G)/Est.V—The Director, Atomic Energy Establishment, Trombay, is pleased to appoint Shri K. Rajan, a temporary Stenographer of this Establishment to officiate as Assistant Personnel Officer in addition to his own duties as Stenographer, with effect from July 9, 1966 (FN) until further orders.

M. N. PANTOJI

Deputy Establishment Officer

DEPARTMENT OF ATOMIC ENERGY

(Atomic Minerals Division)

New Delhi-5, the 27th September 1966

No. AMD-1/32/58-Adm.—The Director, Atomic Minerals Division, hereby appoints Shri T. Chakravarty, as Scientific Officer/Engineer Grade SB, in an officiating capacity in the Atomic Minerals Division, with effect from the forenoon of 25th August, 1966, until further orders.

V. SANKARAN

*Administrative & Accounts Officer
for Director*

New Delhi, the 28th September 1966

No. AMD-2(1629)60-Adm.—Having been selected for appointment to the post of Junior Geologist in the Geological Survey of India, Shri U. S. Reddy, Scientific Officer/Engr. Grade SB, Atomic Minerals Division, Department of Atomic Energy, was relieved of his duties on the afternoon of the 6th August, 1966 and granted joining time from 7th to 10th August, 1-9-66 without joining time pay, to enable him to take up his new assignment at Trivandrum (Kerala).

V. SANKARAN

Administrative & Accounts Officer

MINISTRY OF TRANSPORT AND AVIATION

(Deptt. of Aviation)

India Meteorological Department*New Delhi-3, the 30th September 1966*

No. E(1)03701—The Director General of Observatories hereby appoints Shri S. K. Pal, Officiating Professional Assistant, Office of the Director, Regional Meteorological Centre, Calcutta, as Assistant Meteorologist in an officiating capacity for a period of fifty days with effect from the forenoon of the 12-9-1966 *vice* Shri R. S. Bhartiya, officiating Assistant Meteorologist, undergoing Radio Meteorological Training.

Shri S. K. Pal remains posted in the office of the Director, Regional Meteorological Centre, Calcutta.

P. A. GEORGE*Meteorologist**for Director General of Observatories***MINISTRY OF FINANCE**

(Department of Revenue and Insurance)

Enforcement Directorate*New Delhi, the 26th September 1966*

No. MF-ENF.3(30)A&C/65—Shri G. D. Banerjee, Enforcement Officer, Bombay Branch (on leave) is reverted to his permanent post of Assistant Enforcement Officer in the Calcutta Branch of this Dte. from the 30th September, 1966 (afternoon). He is transferred as Chief Inspector (non-gazetted) to the Directorate of Storage, Deptt. of Food & Supplies, Govt. of West Bengal, from the same date *viz.* 30-9-1966 (A.N.).

C. D. VENKATARAMANAN*Director***COLLECTORATE OF CUSTOMS AND CENTRAL EXCISE****CUSTOMS ESTABLISHMENT***Calcutta, the 19th September 1966*

No. 31/66—Shri C. R. Choudhury, Dy. Superintendent, has been appointed to officiate as an Appraiser, Calcutta Customs, with effect from 14-7-66, (forenoon) and until further orders.

No. 32/66—Shri P. C. Chadha, Preventive Officer Grade I (Selection Grade) has been appointed to officiate as an Appraiser Calcutta Customs, with effect from 11-7-66 (forenoon) and until further orders.

No. 33/66—Shri P. N. Biswas, Preventive Officer Grade I (Selection Grade) has been appointed to officiate as an Appraiser, Calcutta Customs, with effect from 1-8-66 (forenoon) and until further Orders.

The 20th September 1966

No. 34/66—Shri J. C. Halge, Preventive Inspector, has been appointed to officiate as Addl. Chief Inspector, Calcutta Customs, with effect from 6-9-66 (forenoon) and until further Orders.

No. 35/66—Shri M. Galestine, Additional Chief Inspector has been appointed to officiate as the Chief Inspector, Calcutta Customs, with effect from 1-9-66 (forenoon) and until further orders.

No. 36/66—Shri L. H. Franklin, Chief Inspector was granted leave preparatory to retirement for 2 months 23 days with effect from 1-9-66 to 23-11-66. On the expiry of leave Shri L. H. Franklin will retire from service with effect from 24-11-66.

M. G. ABROL*Collector of Customs***CENTRAL WATER AND POWER COMMISSION**
(Power Wing)*New Delhi, the 24th September 1966*

No. 6/1/64-Adm. II—The Chairman, Central Water and Power Commission hereby appoints the following officers to the Central Power Engineering (Class II) Service in the grade of Extra Assistant Director in the Central Water and Power Commission (Power Wing) in a substantive permanent capacity, with effect from the dates shown against their names :

| Sl. No. | Name | Designation | Date of apptt. as E.A.D. on substantive permanent basis |
|---------|------------------------|-----------------------------|---|
| 1. | Shri S. K. Aggarwal | Officiating Dy. Director | 15-2-62 |
| 2. | Shri P. N. Nikore | Do. | 15-2-62 |
| 3. | Shri B. R. Dhawan | Do. | 15-2-62 |
| 4. | Shri J. L. Bagga | Do. | 15-2-62 |
| 5. | Shri P. K. Behl | Do. | 15-2-62 |
| 6. | Shri K. K. Gaur | Do. | 15-2-62 |
| 7. | Shri B. D. Shandilya | Do. | 15-2-62 |
| 8. | Shri J. S. Ahluwalia | Do. | 15-2-62 |
| 9. | Shri M. M. Kewalramani | Do. | 13-6-62 |
| 10. | Shri S. S. Sahgal | Do. | 13-6-62 |
| 11. | Shri S. P. Sanyal | Do. | 13-6-62 |
| 12. | Shri J. V. Sastry | Do. | 13-6-62 |
| 13. | Shri S. Subha Rao | Do. | 13-6-62 |
| 14. | Shri Charanjit Singh | Do. | 13-6-62 |
| 15. | Shri S. P. Luthra | Officiating Asstt. Director | 13-6-62 |
| 16. | Shri B. Menon | Do. | 13-6-62 |
| 17. | Shri D. K. Kundu | Officiating Dy. Director | 13-6-62 |
| 18. | Shri M. M. Turabi | Do. | 13-6-62 |
| 19. | Shri C. P. Jain | Do. | 13-6-62 |
| 20. | Shri P. C. Mandal | Officiating Asstt. Director | 25-3-62 |
| 21. | Shri S. P. Dabla | Do. | 19-2-65 |

No. 3/45/64-Adm.II—Following the recommendations of the Union Public Service Commission, the Chairman, Central Water and Power Commission hereby appoints Shri Akhilesh Prasad Verma, to the Central Power Engineering (Class II) Service in the grade of Extra Assistant Director, in the Central Water and Power Commission (Power Wing) in an officiating capacity with effect from the forenoon of the 8th August 1966, and fixes his temporary headquarters at Faridabad, until further orders.

The 28th September 1966

No. 3/45/64-Adm.II—Following the recommendations of the Union Public Service Commission, the Chairman, Central Water and Power Commission hereby appoints the following officers to the Central Power Engineering (Class II) Service in the grade of Extra Assistant Director in the Central Water and Power Commission (Power Wing) in an officiating capacity with effect from the dates shown against their names :—

S. No., Name & Date from which appointed

1. Shri Narendra Kumar Giri—13-9-66 (F.N.)
2. Shri Priti'osh Ray—14-9-66 (F.N.)

M. M. DHAWAN*Under Secretary
for Chairman***OFFICE OF THE COMMISSIONER OF INCOME-TAX**
ORDER*Income-tax Act, 1961—Redesignation of I.T. Circles—
Central Circle, Allahabad**Lucknow, the 28th September 1966*

No. 81(c)(5)/66—The circle hitherto known as 'Central Circle, Allahabad' shall be redesignated as 'Salary Circle, Allahabad'.

2. This order shall come into force with effect from 1-10-1966.

G. GHOSH*Commissioner of Income-tax
U.P.*

(INCOME-TAX)

Ahmedabad, the 28th September 1966

No. 39—In exercise of the powers conferred by sub-section (2) of section 117 of the Income-tax Act, 1961 (43 of 1961), Shri M. S. Vachharajani, Inspector of Income-tax is hereby promoted to officiate as Income-tax Officer, Class II with effect from 13-9-1966.

He will be on probation for a period of two years in terms of letter No. F. 22/3/64-Ad.VI dated 25-4-1964 from the Government of India, Ministry of Finance, (Department of Revenue), New Delhi.

2. Shri M. S. Vachharajani appointed as Income-tax Officer, Class II was posted as Income-tax Officer, Ward-B, Bhuj with effect from 13-9-1966 *vice* Shri S. P. Patil transferred.

3. On relief, Shri S. P. Patil, Income-tax Officer, Ward-B, Bhuj was transferred and posted as Income-tax Officer, Circle II, Ward-C, Ahmedabad with effect from the afternoon of 20-9-1966 relieving Shri V. Sainivasan, Income-tax Officer, Circle VII, Ward-A, Ahmedabad of the additional charge.

4. On relief by Shri K. C. Mehta, Shri N. M. Baxi, Income-tax Officer, Circle I Ward-D, Baroda was transferred and posted as Income-tax Officer, Circle I, Ward-A, Rajkot with effect from 14-9-1966 relieving Shri G. V. Shah, Income-tax Officer, Circle I, Ward-C, Rajkot of the additional charge.

B. K. BAGCHI

Commissioner of Income-tax
Gujarat-I

MINISTRY OF COMMERCE

(Office of the Textile Commissioner)

Bombay-1, the 27th September 1966

No. CER/1/66—In exercise of the powers conferred on me by Clause 22 of the Cotton Textiles (Control) Order, 1948, I hereby specify that—

- (i) the maximum *ex-factory* price of "dhoty", "saree", "longcloth", "shirting" and "drill" produced by a producer having a spinning plant and packed after the 30th September, 1966 shall be as calculated in accordance with the

formulae contained in the schedule annexed hereto.

- (ii) the maximum retail price of the aforesaid varieties of cloth packed after the 30th September, 1966, shall be 20 per cent over the *ex-factory* price.
- (iii) where any such cloth mentioned in sub-paragraph (i) above is subjected, after sale, after the 30th September, 1966, to further processing by a processor the maximum *ex-factory* price of such cloth processed by the processor shall be the maximum *ex-factory* price calculated in accordance with parts I and II of the schedule increased by the processing charges specified in part III thereto.
- (iv) where any "dhoty", "saree", "shirting", "long-cloth" and "drill" produced by a producer having a spinning plant and packed prior to the 1st October, 1966, is, after sale, subjected to further processing after the 30th September, 1966, by a processor, the maximum *ex-factory* price of such cloth processed by the processor shall be the maximum *ex-factory* price stamped thereon increased by the processing charges specified in part III of the schedule.
- (v) the maximum *ex-factory* price of "seconds" shall be 10 per cent less than that of the maximum *ex-factory* price as specified in sub-paragraph (i), (iii) or (iv) above, as the case may be.

2. The terms "dhoty", "saree", "longcloth", "shirting" and "drill" shall have the same meaning attributed to them in the Textile Commissioner's Notification No S.O. 3656 dated the 13th October, 1964.

3. The producer or processor to whom the above paragraphs apply may recover, in addition to the maximum *ex-factory* price, the amount of excise duty levied under the Central Excises and Salt Act, 1944 (I of 1944) and the amount of Octroi duty levied under any provision of law for the time being in force.

4. Nothing in this Notification shall apply to any cloth supplied to the Central Government against demands of the Ministry of Defence.

SCHEDULE "A-IV"

PART-1

Maximum Ex-Factory Prices of Cloth

Schedule of Realisation Multipliers for cloth falling under controlled categories packed by mills after the 30th September, 1966

| Group | Quality (Basic) | | | | Permissible count variation for linking with each group | | Realisation Multiplier in paise per kg. of yarn woven | Variation in realisation multiplier per count of yarn |
|-----------------------|-----------------|---------------|-----------|-----------|---|-------------|---|---|
| | Count of warp | Count of weft | Reed Nos. | Pick Nos. | Wrap Counts | Weft Counts | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| Indian Cotton | | | | | | | | |
| I Carded | 14s | 10s | 40 | 40 | 13s-16s | 9s-12s | 637 | 4 |
| II Carded | 14s | 14s | 44 | 44 | 13s-16s | 13s-20s | 695 | 4 |
| III Carded | 20s | 20s | 52 | 52 | 20s-22s | 13s-24s | 797 | 4 |
| IV Carded | 22s | 30s | 54 | 54 | 20s-22s | 25s-30s | 896 | 4 |
| V Carded | 30s | 30s | 56 | 56 | 28s-30s | 25s-30s | 980 | 7 |
| VI Carded | 30s | 40s | 62 | 62 | 28s-33s | 34s-40s | 1070 | 7 |
| Foreign Cotton | | | | | | | | |
| VII Carded | 40s | 40s | 66 | 66 | 35s-44s | 35s-44s | 1466 | 9 |
| VIII Carded | 44s | 50s | 68 | 68 | 40s-44s | 45s-54s | 1608 | 9 |
| IX Carded | 44s | 60s | 70 | 70 | 40s-44s | 55s-60s | 1656 | 9 |
| X Carded | 50s | 60s | 72 | 72 | 47s-52s | 55s-60s | 1874 | 9 |
| XI Combed | 60s | 80s | 74 | 74 | 55s-64s | 64s-82s | 2410 | 9 |
| XII Combed | 70s | 90s | 78 | 78 | 65s-75s | 84s-95s | 2792 | 11 |
| XIII Combed | 80s | 100s | 82 | 82 | 76s-84s | 90s-100s | 3071 | 11 |

N.B.—This Schedule gives the constructional particulars in English count. (i) Mills have since been asked to switch over to the French count. Where, however, mills use yarn in stock spun under the French count system; the French counts of yarn used in the warp and weft of the cloth should be indicated in the 'C' form with the corresponding English count rounded off to the nearest quarter count in brackets; 0.125 and below to be omitted; 0.126 and upto 0.375 to be taken as 0.25; 0.376 and upto 0.625 to be taken as 0.50; 0.626 and upto 0.875 to be taken as 0.75 and 0.876 and upto 0.999 to be taken as 1.00. The weight of yarn in the cloth should be calculated on the basis of French count in the case of mills who have switched over to the French count system.

(ii) The adjustment for count variation for mills adopting the French count system shall be made by taking the total of warp and weft counts as rounded off in the manner specified in (i) above. From the total figure so arrived at fractions shall be omitted.

SCHEDULE "A-IV"

PART II

ADJUSTMENT TO THE BASIC GREY REALISATION MULTIPLIER

I. Cotton adjustments

1. Group I.—For manufacture of qualities with warp counts 9s to 12s in Group I reduce the multiplier by 11 Paise per kg. of total yarn woven, with the count variation applicable to the group.

2. Group III.—For manufacture of qualities with 17s to 19s warp counts reduce the multiplier for Group III by 8 Paise per kg. of total yarn woven, with the count variation applicable to the group.

3. Groups IV and V.—(a) Qualities with warp counts 23s to 27s will be linked to Group IV with an increase in the multiplier by 40 Paise per kg. of yarn for warp only, with the count variation applicable to the group.

(b) Qualities with weft counts 31s to 33s will be linked to either Group IV or Group V according to the permissible warp counts. An increase of 40 Paise per kg. of weft yarn woven in the fabric will be allowed over the multiplier for Group IV if the quality is to be linked to Group IV and over the multiplier for Group V if the quality is to be linked to Group V with the count variation applicable to the relevant group.

(c) Qualities with warp counts 23s to 27s and weft counts 31s to 33s will be linked to Group IV and an increase of 40 Paise per kg. of yarn woven will be permissible on the weight of both warp and weft yarn over the multiplier of Group IV, with the count variation applicable to the group.

4. Group VI.—(a) qualities with the warp counts 34s and above from Indian cotton will be linked to Group VI and an increase of 136 Paise per kg. of warp yarn over the multiplier for Group VI is permissible on the weight of warp yarn only, with the count variation applicable to the group.

(b) Qualities with weft counts 41s and above from Indian cotton will be linked to Group VI and an increase of 136 Paise per kg. of weft yarn over the multiplier for Group VI is permissible on the weight of weft yarn only, with the count variation applicable to the group.

(c) Qualities with warp counts 34s and above and weft counts 41s and above from Indian cotton will be linked to Group VI and an increase of 136 Paise per kg. of yarn woven over the multiplier for Group VI will be permissible on the weight of both warp and weft yarn, with the count variation applicable to the group.

Note : The increase of 136 Paise per kg. of yarn over the multiplier for Group VI specified in (a), (b) and (c) above is permissible only if the yarn is spun from Cambodia (A), CO 2 varieties coming under Cambodia (A) or types of cottons equivalent to or superior to these types.

(d) Allowance admissible for use of I.S.C. 67 cotton in controlled cloth will be communicated separately.

5. Group XIII.—Qualities finer than permissible count ranges for Group XIII manufactured out of superior foreign cotton will be linked to Group XIII. An allowance of 150 Paise per kg. of yarn woven will be permissible on the basic grey realisation multiplier. Suitable adjustments for count variation at 11 Paise per count per kg. and also for reed/pick variations will have to be done in the usual manner after adding the cotton allowance specified in this para.

6. *Foreign cotton :* In cases where foreign cotton is to be used for warp linked to Group V and warp and weft counts linked to Group VI, mills should apply to the Textile Commissioner with full details for fixation of prices. The words "warp and weft" in Group VI would cover warp and weft together or either warp or weft.

(i) *100% Foreign cotton :* The cotton allowance will be permissible only for the use of 100% foreign cotton. Foreign 'B' cotton (cotton with staple length below 1-1/16") will not qualify for any allowance. Mills should indicate the types of cotton used and the fabrics made with their constructional particulars and serial numbers which they propose to stamp on the fabrics. On receipt of those details, the permissible cotton allowance will be intimated to the mills concerned.

(ii) *Mixture of Indian and Foreign cotton :*

(a) No allowance is permissible for mixture of Indian cotton with foreign cotton for cloth qualities linked to Group V.

(b) Mixture of foreign cotton (other than Foreign 'B' cotton with staple length below 1-1/16") with Indian cotton for cloth qualities linked to Group VI will qualify for the allowance of 136 Paise per kg. of such yarn used in the fabric (warp or weft or both) subject to the conditions prescribed in 4(a), (b) and (c) above and the note thereunder. It should be noted that no allowance would be admissible even if the cloth is linked to Group VI if the warp count is less than 34s and weft count is less than 41s or where the cotton used is not equivalent to or superior to the Cambodia 'A' and CO 2 varieties coming under Cambodia 'A'.

(iii) Mills using a mixture of Indian cotton CO 2 and/or Cambodia 'A' with foreign cotton, other than foreign 'B', for all fabrics having warp counts of 34s and above and weft counts of 41s and above, even through the permissible counts might relate to Groups higher than Group VI, will link the fabrics to Group VI only taking the cotton allowance of 136 Paise per kg. over the multiplier for Group VI plus the admissible count, reed and pick variations. Here also foreign 'B' cotton (cotton with staple length below 1-1/16") will not be treated as equal to or superior to the CO 2 or Cambodia 'A' cotton. Mills should give the details of the cotton used for the mixture in the 'C' form. Mills should keep proper records to show the types of foreign cottons used for inspection.

7. *Re-wound warp yarn used as weft in fabrics :*

On the question as to whether the case of 36s warp yarn which is linked to Group VI and where the yarn is spun from Cambodia (A), CO 2 and better types of cotton, if such 36s warp yarn is re-wound and used as weft in the same fabric, the cotton allowance prescribed for warp in item 4 Part II of the Schedule of Multiplier will be permitted in respect of such 36s re-wound warp yarn used as weft in the fabric, this allowance is permissible only if the weft count is 41s and above and since in this case the weft count is only 36s, the cotton allowance will not be permissible.

This is an illustration and will apply in all similar cases.

II. *Combing Allowance*

(a) No allowance for combing of cotton for counts below 30s warp or weft will be permitted.

(b) Fabrics linked to Groups V and VI of counts 30s and above will be eligible for combing allowance at 55 Paise per kg. of combed yarn used in the fabric, provided that the following conditions are fulfilled.

- (1) The minimum comber loss in respect of the counts specified above shall be 10 per cent.
- (2) The minimum reed, in the case of longcloth and shirting shall be 72.
- (3) The minimum reed in the case of dhoties and sarces shall be 44.
- (4) Both the warp yarn and the weft yarn in the fabric should be combed yarn.

Note : (i) For claiming the Combing Allowance the count should be 30s and above both in warp and weft.

(ii) Where for the body of the fabric no combing allowance is admissible either because carded yarn is used or combed yarn is not used both in warp and weft or the minimum count and/or reed specification is not complied with, or the minimum Comber loss is not obtained, border yarn also will not be entitled to any combing allowance even if it is combed yarn.

(c) *Fabrics linked to Groups VII, VIII and IX in Part I of Schedule 'A-IV' will be eligible for combing allowance at 85 Paise per kg. of combed yarn used in the fabric either in the warp or weft or both as the case may be. For fabrics linked to Group X the combing allowance will be 105 Paise per kg. of combed yarn used in the fabric in the warp or weft or both as the case may be. These allowances are admissible provided the minimum comber loss is 14 per cent.*

(d) The multipliers in respect of Groups XI and above are based on combed cotton. If carded yarn qualities are used in fabrics linked to Groups XI and above in

warp or weft or both, a reduction of 117 Paise per kg. of carded yarn used in the fabric should be effected in the Multipliers. Mills requiring price fixation for qualities manufactured with carded yarn and linked to Groups XI and above should approach the Textile Commissioner.

III. Method of Linking

1. All varieties of cloth falling under controlled categories manufactured by mills shall be linked with one or the other groups mentioned in Part I of Schedule 'A-IV'.

2. The linking shall be made according to the counts of warp and weft falling within the permissible count variation specified in columns 6 and 7 of Part I of Schedule 'A-IV'. Where the warp and weft counts of a fabric fall within the permissible range of warp and weft counts in a group, the fabric should be linked to that group only.

3. (i) The basic adjustments between counts for cloth in each combination of counts shall be arrived at for the composite counts and is to be applied to the total weight of yarn in warp and weft only without any addition. In other words, actual yarn weight in both warp and weft of any cloth shall be worked out on the counts of yarn used in the cloth.

(ii) Calculation on fractions of counts shall not be permitted except as specified in Notes under Part I of Schedule 'A-IV'.

(iii) Weight of weft should be calculated on the actual loom state length and not on the finished length of the piece.

(iv) Wherever the count of weft is coarser than the count of warp separate linking for warp and weft with appropriate groups of multipliers will be permitted provided the weft is spun from appropriate cotton and provided also that such counts of weft are selected from the next lower group.

(v) Wherever the count of weft is finer than the count of warp even beyond the counts of weft permitted under particular group in Part I of the Schedule 'A-IV' separate linking for warp and weft with appropriate group of multiplier will be permitted provided the weft is spun from appropriate cotton of the higher group and the minimum standard for picks is approved by the Textile Commissioner and provided further that such counts of weft are selected from a higher group immediately next.

Note : (i) There are certain warp and weft counts which overlap in more than one Group. For instance, weft counts 13s-20s will come under Group II and also in Group III. Here the Group to which the warp of the cloth is linked will determine the group to which the weft should be linked. For instance in the case of cloth having 18s warp and 14s weft, the warp count 18s will be linked to group No. III in accordance with item No. 2 of 'Cotton Adjustments'—Part II of Schedule 'A-IV'. The weft count of 14s although occurring in Group II and III will be linked to Group No. III only as the warp is linked to that group.

(ii) *Double linking :* There are certain qualities which will permit linking of warp and weft to separate groups. For instance a quality of 12s warp and 16s weft 44 reed and 40 picks will be linked to Group I for warp and Group II for weft. In such cases of separate linking, the calculation of the price will be as under :—

(a) 12s warp will be linked to Group I as under :

Standard $14s \times 1 \frac{1}{2} s \times 41$ reed \times 40 picks.
Quality $12s \times 12s \times 44$ reed \times 40 picks.

(b) 16s weft will be linked to Group II as under :

Standard $14s \times 14s \times 44$ reed \times 44 picks.
Quality $16s \times 16s \times 44$ reed \times 40 picks.

Adjustments for counts and reed and picks will be made for the separate groupings and the final multiplier for warp will be multiplied by the warp weight, and final multiplier for weft will be multiplied by the weft weight to arrive at the price of the piece.

(iii) It will be permissible to deviate from the prescription given in (iv) and (v) above and take the weft

count from a group even lower than the next lower group or higher than the next higher group. For example a quality of 18s warp and 12s weft will be linked to Group III for warp and Group I for weft. This linking will, however, be subject to the observance of production control restrictions.

4. The basic realisation multiplier shall be adjusted, wherever necessary, in the following manner :—

- Adjustment for cotton (cotton allowance), see Part II of Schedule "A-IV".
- Combing allowance, see Part II of Schedule "A-IV".
- Narrow width allowance :—Part I of Schedule "A-IV" applies fairly uniformly for all grey qualities of 76 cms. and over and for all bleached dyed and finished qualities of width 71 cms. and over.

For widths lower than 76 cms. grey or 71 cms. bleached, dyed or finished the multipliers given in the above schedule shall be increased as under :

- Groups I to VI 18 paise per kg. of yarn woven
- Groups VII and above 16 paise per kg. of yarn woven

(Splits should be excluded in all cases).

NB : In respect of grey calendered sorts, the narrow width allowance has reference to the loom state width and will be allowed only if the width of the cloth is below 76 cms. in the loom state.

(d) Adjustment for count variation—see column 9 of part I of Schedule "A-IV".

(e) (i) Adjustment for variation in reed : For every upward variation of 4 reeds and multiples of four reeds, the multiplier specified in column 8 of Part I of Schedule "A-IV" after adjustment as above shall be increased by half per cent. In addition, in the case of qualities linked to Groups I and II and falling under the 'coarse' category of fabric for every downward variation of 4 reeds and multiples of four reeds, the multiplier specified in column 8 of Part I of Schedule "A-IV" after adjustment as above shall be decreased by half per cent.

(ii) *Variation of picks :* For every upward or downward variation of 4 picks and multiples of four picks, the multiplier specified in column 8 of Part I of Schedule "A-IV" after adjustment as above, shall be increased or decreased by one per cent.

Note : In calculating the percentage adjustments under e(i) and e(ii) above multiples of four only should be adopted, fractions thereof being omitted. The resultant percentage adjustment applying both the reed and pick variations should first be calculated and then applied over the multiplier and not separately for reed and for pick variations.

(f) For all qualities manufactured out of double or more twisted yarn, the appropriate multiplier after adjusting the count, reed and pick allowance shall be decreased by 5 per cent (with a minimum of 35 paise per kg. of yarn woven) in case both warp and weft yarn are twisted and by 2½ per cent. (with a minimum of 18 paise per kg. of yarn woven) in case either warp or weft yarn is twisted.

(g) The following compensatory allowance for grey cloth is permitted to those mills only who obtain not less than 75% of their motive power by burning coal and/or fuel oil in their own boilers. The allowance is also subject to the conditions stipulated below :—

(i) The allowance shall be equivalent to 2½% of the Realisation Multiplier after the same has been adjusted wherever necessary in accordance with (a) to (f) above.

(ii) The allowance shall apply to the weight of grey yarn only from which the cloth is woven. Any secured, bleached, dyed, printed or mercerised yarn used in the manufacture of cloth shall be excluded from this allowance.

(iii) For the purpose of ascertaining whether a mill has obtained not less than 75% of their motive power by burning coal and/or fuel oil in their

own boilers, the average of the consumption for the previous six monthly period (January to June and July to December) should be taken into account.

Note : (i) Mills who obtain electric power from Electric Supply undertakings, where coal and/or fuel oil is consumed for generation of power, will not be entitled to claim this allowance.

(ii) If grey fabric undergoes subsequent processing such as bleaching, dyeing etc., this 2½% increase will not be applicable on the bleaching, dyeing etc. charges.

5. Dobby allowance for borders in dhoties and sarees :—

| | Upto 12 shafts | From 13 shafts to 32 shafts | From 33 shafts & above |
|-----------------------------------|-----------------|-----------------------------|------------------------|
| | (Paise per kg.) | | |
| (a) For warp counts below 36s | 35 | 70 | 105 |
| (b) For warp counts 36s and above | 71 | 142 | 213 |

6. Jacquard allowance :—

| Warp counts | Paise per kg. | | | |
|---------------|----------------------|--------------------------------|-------------------------------|-------------------|
| | 120 needles and less | Above 120 and upto 240 needles | Over 240 and upto 400 needles | Above 400 needles |
| 16s and below | 71 | 88 | 106 | 121 |
| 17s to 34s | 141 | 176 | 212 | 247 |
| 35s to 57s | 207 | 260 | 313 | 364 |
| 58s and above | 273 | 342 | 410 | 478 |

Note—The allowances for Dobby and Jacquard work specified in item 5 and 6 above are to be added on the basis of weight of yarn in wrap and border, exclusive of weight of weft yarn. These charges would be permitted for the minimum number of Dobby shafts or Jacquard needles required for the reproduction of the designs.

7. Drop-box allowance :—

| Warp counts | Charges in paise per kg. of yarn woven | |
|---------------|--|----------------------|
| | 2 and 3 shuttles | 4 shuttles and above |
| 16s and below | 97 | 121 |
| 17s to 34s | 190 | 238 |
| 35s to 57s | 278 | 346 |
| 58s and above | 366 | 456 |

Note :—The Drop-box allowance is to be taken on the total weight of yarn warp and weft in the piece. This allowance is permissible only for the minimum number of shuttles required for the reproduction of the pattern.

8. Charges for use of doubled yarn in the border of dhoties and sarees :

(i) For the purpose of linking border yarn will be treated as distinct from the body of the fabric and the border yarn in all cases will be linked separately to the appropriate group applicable to the basic single count of the border yarn. For the purpose of adjustment for count variation the count of weft will be assumed to be the same count as the basic single count of the border yarn. The weight of border yarn will be multiplied by the realisation multiplier of the appropriate group for its basic single count. In addition the doubling charges as under will be permitted.

| Count | Doubling charges in Paise per kg. of doubled yarn used in border |
|-------|--|
| 10s | 44 |
| 20s | 49 |
| 30s | 71 |
| 40s | 97 |
| 44s | 104 |
| 60s | 126 |
| 80s | 165 |
| 100s | 207 |
| 120s | 275 |

(ii) The following extra charges are to be added for the intermediate counts :—

| | |
|-------------------------------------|------------------------------|
| Any count between 2/10s and 2/2s | 0.50 paise per count per kg. |
| Any count between 2/2s and 2/30s | 2.2½ paise per count per kg. |
| Any count between 2/30s and 2/40s | 2.60 paise per count per kg. |
| Any count between 2/40s and 2/44s | 1.75 paise per count per kg. |
| Any count between 2/44s and 2/60s | 1.40 paise per count per kg. |
| Any count between 2/60s and 2/80s | 2.00 paise per count per kg. |
| Any count between 2/80s and 2/100s | 2.10 paise per count per kg. |
| Any count between 2/100s and 2/120s | 3.40 paise per count per kg. |

(iii) For use of processed doubled yarn in the above qualities, the charges prescribed in item 7 of Part III of Schedule "A-IV" for Processing charges will apply in addition.

Note : In case single yarn is used in borders, the border yarn will be linked as indicated in Item '8' on the basis of its basic single count. In addition, 50% of the difference between the multiplier rate for the warp yarn of the fabric and the multiplier rate for the border yarn will be allowed on the weight of the border yarn provided that the yarn in the border has a minimum lea-strength of not less than 1½ times the lea-strength of the warp yarn in the fabric. The mills will be required to certify the lea-strength of the warp yarn and the lea-strength of the border yarn for this purpose in the 'C' form. Such declared strength will be subject to inspections and check from the enforcement staff. Mills should also keep records of the lea-strength of the warp yarn and the border yarn. The grant of doubling charges will not arise.

(iv) In addition to the above, the following compensatory allowance may be added to the final prices of dhoties and sarees for loss of production :—

(i) 3 Paise per meter in the case of dhoties and sarees manufactured from 14s warp and over and linked to Groups upto and including Group VI.

(ii) 5 paise per meter in the case of dhoties and sarees the warp counts of which are linked to Groups VII and above.

Note : (i) Dyeing charges for the use of coloured yarn in the headings of Dhoties and Sarees are not permitted.

(ii) No compensatory allowance as for sarees will be admissible in the case of printed Mulls and Voiles and Dorias, which are offered as sarees under the Controlled Category.

9. The doubling charges specified in items 8(i), (ii) and (iii) will also apply to other qualities where doubled yarn has been used whether as warp and/or weft.

10. *Grandrelle Shirtings* :—

For Grandrelle shirtings accepted as controlled cloth the following adjustments will be necessary in calculating prices :—

(a) While effecting the adjustments from the basic realisation multiplier the deduction prescribed in the Schedule "A-IV" under item 4(f) in Part III 'Method of Linking' for the use of double or more twisted yarn will not be necessary.

(b) Doubling charges prescribed under item 8 in Part III 'Method of Linking' of Schedule "A-IV" will not be admissible.

(c) Dyeing charges for the processed yarn used in the fabrics having Grandrelle yarn will have to be worked out by adopting the dyeing charges prescribed in the Schedule "A-IV" under item 7 of Part III of Schedule (Schedule of processing charges).

11. Yarn in selvages used in cloths other than Patti Mulls and Voiles :—

Doubled or single yarn, if any, used in selvages of cloth other than Patti Mulls and Voiles should only be treated as falling within the warp yarn used in the cloth

and will not be permitted to be taken as border yarn and will not be allowed the special charges for border yarn.

12. Extra allowance for Mulls and Voiles :—

For bleached, dyed or printed mulls and voiles of 44" (112 cms.) width and more and conforming to the following specifications, an additional allowance will be permitted as indicated against the respective qualities :—

- | | |
|--|----------------------|
| (i) Linked to Group VII to IX } with minimum 48 Reed and 44 picks. | } 4 paise per meter. |
| (ii) Linked to Group X and } above with minimum 56 Reed and 48 Picks | |

13. Drills.

(a) Allowance for Production of drills of superior specifications :—

The following allowances will be admissible in the case of drills which conform to or are better than the specifications prescribed by the Director General of Supplies and Disposals for Defence material.

- A drill allowance of 6 paise per kg. of yarn woven in the fabric. This allowance is applicable both on warp and weft.
- Cotton allowance at 25 paise per kg. in the case of drills manufactured with 19s warp and below, and at 40 paise per kg. in the case of warp counts above 19s. This cotton allowance is applicable only on the weight of warp in the fabric.

NOTE : While submitting the 'C' forms in respect of drills where the above allowances are claimed, the mills should indicate clearly the specification number to which the drill conforms and also the weight in kg. per square meter of the drills. The mill should also endorse a certificate that the drills to be packed for civil production will be strictly in accordance with such specifications.

(b) Fixation of price for Mineral Khaki Drill—Rejects :—

- In respect of Mineral Khaki Dyed Drill produced for defence and rejected by D.G.S. & D. 61% below the contract price may be charged and stamped.
- In respect of Mineral Khaki Dyed Drill rejected by mills themselves, the stamping should be 10% below the contract price.

Where however, the prices arrived at in the above manner are in excess of the prices calculated on the application of Multipliers without the allowances permissible for D.G.S. & D. specifications, mills should charge and stamp only the lower of the two prices viz. the prices calculated on the application of the Multipliers without the allowances permissible for D.G.S. & D. specifications.

14. (a) Realisation for use of Rayon (Artificial Silk) yarn in Cotton cloth :—

For use of artificial silk yarn used in saree borders and as weft for the ground, the following charges will be permissible :—

The art silk yarn will have to be linked to the appropriate count group equivalent to the English cotton count and the multiplier of that group without any adjustment for cotton shall be applied over the weight of the yarn. In addition only the following allowances to compensate for the differences in prices between art silk yarn (Rayon yarn) and its corresponding cotton yarn count which has been allowed in the multiplier will be permitted :—

| Art silk yarn count | Corresponding cotton count in English system | Additional charges in paise per kg. of art-silk yarn woven |
|---------------------|--|--|
| 150 D | (35s) | 771 |
| 2/150 D | (2/35s) | 854 |
| 120 D | (44s) | 436 |
| 2/120 D | (2/44s) | 542 |

(b) For other Deniers of Art Silk yarn and for the use of staple fibre yarn in fabrics mills may apply to the

Textile Commissioner for price fixation giving details of manufacturing particulars.

15. Processing charges will be permissible in accordance with Part III of Schedule "A-IV".

16. Allowance on account of seconds, fents, rags, etc :—

The final price as calculated in accordance with the Schedule of Multipliers specified, will be increased as under :—

- | | |
|--|---------------|
| (i) On grey cloth | 1.75 per cent |
| (ii) On processed cloth other than printed sorts | 2.75 per cent |
| (iii) On printed sorts | 3.75 per cent |

17. The Textile Commissioner, if he is satisfied that due to the nature of machinery and equipment in the undertaking a producer having a spinning plant is not able to produce cloth other than dhoties and sarees, may, in respect of sarees having a border of width exceeding 3.81 cms. but not exceeding 6.35 cms. and packed in excess of the quantity of dhoti/saree, long cloth and shirting and drill taken together, as prescribed by the Textile Commissioner and on an application made to him in this behalf, specify a price exceeding the ex-factory price specified in Schedule "A-IV" by 2½%.

18. Rounding off of the ex-factory and Retail prices should be to the nearest Paise, 0.51 paise and above taken as one paise and 0.50 and below omitted.

SCHEDULE IV

PART III

Schedule of Processing Charges

The weight of grey fabrics wherever referred to in the Schedule should be calculated by taking the actual total weight of warp and weft yarns excluding the weight of sizing materials used in the cloth without any addition.

Charges for process which are not included in the Schedule will be allowed to the mills only on application and subject to such conditions as may be prescribed by the Textile Commissioner for the purpose.

(1) *Bleaching Charges* :—Bleaching will be deemed to include Cropping/Shearing, Singeing, Desizing, Kier-boiling, Chemicking, Souring, Antichloring, Scutching, Water-Mangling, Washing and Drying. Alternative systems of bleaching such as J. Box-bleaching, boiling with Hydrogen Peroxide, Sodium Chloride etc. up to the stage of final drying will also be covered by the above definition.

Price element for bleaching (market bleached) per kg. of grey fabrics :

| | Paise per kg. |
|--|---------------|
| (i) for unmercerised bleached sorts not containing any coloured yarn (not to be printed or dyed) | 58 |
| (ii) for unmercerised bleached sorts containing coloured yarn (not to be printed or dyed) | 58 |
| (iii) for bleached and mercerised sorts (not to be printed or dyed) | 70 |
| (iv) for all bleached sorts for printing | 56 |

NOTE :—No separate bleaching charges are admissible for for dyed fabrics.

(a) Mills should specifically certify in the 'C' forms that the bleaching is done both before and after mercerising and will continue to be done on the fabric produced, for item (iii) above.

(b) In case of mercerised sorts which are only bleached once and not twice the charge admissible will be 58 paise as mentioned in the Schedule of bleaching charges.

(c) (i) In case of bleached sorts containing 100 per cent coloured yarn (in both warp and weft), only half of the bleaching charges prescribed above will be allowed.

(ii) In case of sorts partly woven with grey and partly with coloured yarn and subsequently bleached the full bleaching charges prescribed above will be allowed.

(2) *Mercerising* : 'Mercerising' will be deemed to include the passage of fabrics through a mercerising range with caustic soda of minimum 20% strength with sufficient stretching both during and after such passage followed by washing, souring, etc.

Price element for mercerising of fabrics—

| | Paise per kg. |
|---|---------------|
| (i) For sorts up to 6 grey metres per kg. | 53 |
| (ii) For sorts up to 10 grey metres per kg. | 60 |
| (iii) For sorts over 10 grey metres per kg. | 71 |

(3) **Dyeing charges** :—Dyeing charges include charges for batching-up, prewetting, scouring, bleaching, dyeing, airing, developing, oxidising, soaping, washing and drying.

Price element for dyeing per kg. of grey fabrics :

| | Paise per kg. |
|--|---------------|
| (i) Vat dyes : | |
| (a) Light shade | 164 |
| (b) Medium shade | 252 |
| (c) Dark shade | 365 |
| (d) Very dark shade | 516 |
| (ii) Sulphur dyes— | |
| (a) Dark and very dark shade | 151 |
| (b) Light and medium shade | 88 |
| (iii) Naphthol dyed (including rapid fasts and rapidogens)— | |
| (a) Consumption up to 1 per cent (on the weight of the fabric) | 160 |
| (b) Consumption over 1 per cent (on the weight of the fabric) | 270 |
| (iv) Mineral Khaki | 121 |
| (v) Aniline Black | 210 |
| (vi) Hydron Blue (Deep shade) | 194 |
| (vii) Pthalogene Blue | 495 |

- NOTE : (i) In claiming dyeing charges for aniline black no additional charges are permissible for pre and or post mercerising of cloth to be dyed.
- (ii) The claim for dyeing charge for Pthalogene Blue is subject to the condition that the depth of the shade should not be less than 3 per cent of the dye used in the weight of the fabric.
- (iii) For all other types of dyeing not specifically mentioned in the table, price elements specified for Vat dyes will be applicable provided that the fastness to washing and bleaching is of grade 3 or above under I.S.I. specifications.
- (iv) The dyeing charges specified above include 'bleaching charges'.

(B) **Reactive Dyes** : Price element for dyeing per kg. of grey fabrics.

| | Paise per kg. |
|------------------------|---------------|
| Light shade | 121 |
| Medium shade | 220 |
| Dark shade | 330 |

- NOTE : (i) The above charges included bleaching charges.
- (ii) Use of reactive dyes is subject to the condition that the fastness to washing of the dyeing is of grade 3 and above when tested as per I.S.I. specifications or mechanical washing (severe).

(C) **Direct Dyeing**—Price element for dyeing per kg. of grey fabrics :—

| | Price per kg. |
|------------------------|---------------|
| Light shade | 78 |
| Medium shade | 93 |
| Dark shade | 120 |

- NOTE : (i) No direct dyeing will be allowed in cases of manufacturers who have not been dyeing fabrics with direct dyes for substantial periods prior to October 1964. Applications with full particulars should be submitted to the concerned Regional Office of the Textile Commissioner for verification and issue of necessary certificates to undertake dyeing.
- (ii) The date of commencement of manufacture of the fabric and the markets served should be indicated in the 'C' forms.
- (iii) No separate bleaching charges will be permissible.

(4) **Printing Charges** : 'Printing' is deemed to include cropping/shearing, singeing, batching, printing, drying, ageing/curing (where necessary) oxidising, developing, soaping, washing and drying. Naphthol padding or developing with diazo salts for Azolic prints are also included in printing.

(A) Price element corresponding to printing charges up to and including two colours—

| Area of fabric covered by printing | Paise per square metre (Finished) in all dyes/pigments except direct dyes | |
|--|---|--|
| | Printing in all dyes/pigments except direct dyes | Where one of the colours is Khad-die (TiO ₂) |
| (i) Up to 10 per cent | 12 | 15 |
| (ii) 11 per cent to 20 per cent | 26 | 30 |
| (iii) 21 per cent to 40 per cent | 27 | 32 |
| (iv) 41 per cent to 60 per cent | 30 | 35 |
| (v) 61 per cent to 80 per cent | 32 | 38 |
| (vi) 81 per cent and over | 34 | 40 |

NOTE : (a) Blotch prints will be deemed to be included in (vi) above.

- (b) (i) For each extra colour add 2.60 paise per sq. metre. For 'resist' or 'discharge' prints, 'White resists' and 'white discharges' are to be counted as colours. If the printing be on dyed fabric or is overdyed, the colour of the dye is not to be taken into account for purposes of ascertaining the number of colours in printing. For this purpose, the number of colours should correspond to the number of printing rollers required.

- (ii) In the case of Resist and Discharge prints the basic colour of the dyed fabric will *not* be treated as a colour for the purpose of ascertaining the number of colours. However, the dyeing charges will be in case of resist and discharge printing be also admissible.

- (c) (i) For fabric printed on the border(s) only, the price element corresponding to printed area covering up to 10 per cent should be taken. In case the area covered by the border(s) exceeds 10 per cent of the total area of the fabric then the price element appropriate for the area covered should apply.

- (ii) For printing border(s) on the other printed sorts—

- (a) add 3.27 paise per sq. metre for printing border alongside, one selvedge.

- (b) Add 5.21 paise per sq. metre for printing border alongside both selvedges.

N.B.—Manufacturers will be entitled to claim this additional charge for printing borders *in full* only if they use separate rollers for printing the borders and also the depth of the prints in the border and in the body are different; otherwise only 50 per cent of the charges provided may be allowed for such printing of borders.

- (a) When printing is done on both sides of the fabrics, 1½ times of the printing charges stipulated in (4) above will be allowed.

- (b) In respect of fabrics printed in gold colour's (either exclusive in gold colour or with other colours), 45 paise per square metre (finished) will be allowed, subject to the following conditions :

- (i) The area of the fabric covered by printing with gold colour alone should not be less than 5 per cent and prints should be fast to Soda Boiling and rubbing ;

- (ii) No additional charges for printing of borders and pallavs will be admissible.

- (iii) If the area of the fabric covered by printing in Gold colour is below 5 per cent, no separate charges will be permissible and charges prescribed for roller printing only will be admissible ;

- (iv) Printing charge of 45 paise per sq. metre (finished) will be applicable for printing fabrics up to two colours of which one colour should be in Gold colour printing. For printing of fabrics in more than two colours, of which one colour is 'Gold colour', the additional charges prescribed in the Schedule for extra colour printing over two colours will be applicable in respect of the number of colours over two.

B. The price element per finished square metre for screen printing with six colours (screens) and above will be allowed at the following rates subject to a certificate from the mills that the designs in question cannot be printed on roller printing machines.

| Percentage of area covered by printing | Price per finished sq. metre (for all widths) |
|--|--|
| (i) Upto and including 50 per cent as also for printing below six colours. | Same rate as for roller printing, as indicated in item 4 (A). |
| (ii) 51 per cent and over | |
| (a) between 6 and 8 screens | 69 |
| (b) Above 8 screens | For every additional screen over 8 screens an allowance of 5.21 paise per finished sq. metre is permitted. |

Note : (i) Screen printing covering an area of upto and including 50 per cent of the fabric or irrespective of the area covered where the printing is below six colours, the rate will be the same as for roller printing.

(ii) Additional charges for printing of borders as provided in note (c) (ii) item IV(A) above may be claimed, if borders have been printed by using additional screens, and a certificate to this effect is recorded in the 'C' form.

(5) *Sanforising Charges*—Price element corresponding to sanforising or other type of mechanical pre-shrinking—

Sanforising—8 paise per grey metre (for all widths).

(6) *Finishing Charges*—Finishing should include wherever necessary application of starch or gum or thermoplastic resins by mangling followed by stretching/stentering, drying, dampening, calendering, packing, etc.

Price element corresponding to finishing process—

| | Paise per Kg. of grey fabric |
|---|------------------------------|
| (i) for all processed sorts other than items in (ii) (a and b), below | 54 |
| (ii) (a) for bleached and back-filled sorts | 43 |
| (b) for other processed and back-filled sorts | 26 |

Note : (i) If the grey sort is only dampened/steamed and calendered, charges shall be 4 paise per kg. of grey fabric ; for all grey sorts calendered and finished the over-all finishing charges including calendering, etc. will be restricted to 4 paise per kg. calculated on the grey weight of the fabric.

(ii) For all other processes/operations involved in imparting special finishes, charges may be got approved by the Textile Commissioner.

(7) *Charges for processing yarn used in fabrics :*

| | Price element for processed yarn in border | Price element for processed yarn other than in border and heading |
|--|--|---|
| | (1) | (2) |
| | Paise per kg. | |
| 1. Bleaching charges | 71 | 71 |
| 2. Mercerising charges | 108 | 108 |
| 3. Dyeing charges—A. Vat dyes : | | |
| (i) Light shade | 234 | 209 |
| (ii) Medium shade | 324 | 298 |
| (iii) Dark shade | 518 | 460 |
| (iv) Very dark shade | 635 | 569 |
| B. Naphthol Dye | | |
| (i) Upto 1 per cent of weight of yarn | 265 | 240 |
| (ii) Over 1 per cent of weight of yarn | 400 | 340 |
| C. Indo-carbon (CL or CLG) | | |
| Fast black shade | 400 | — |
| D. Sulphur black | — | 154 |

E. Cotton dyed yarn :

Price element on the weight of cotton dyed yarn used in the fabrics :—

- (i) Where 100% cotton is dyed irrespective of the shade of the colour in the yarn. 209 paise per kg. of such cotton dyed yarn used in the fabric.
- (ii) Where such yarn is made out of mixture of dyed and undyed cotton. 70 paise per kg. of such dyed yarn used in the fabric irrespective of the shade.

Note : (i) Dyeing charges include pre-wetting/securing, bleaching of yarn employed for dyeing.

(ii) Mercerising charges will be applicable only if the yarn has undergone mercerising treatment in a yarn mercerising machine with caustic soda of minimum 20% strength under suitable tension and subsequent souring, washing etc.

(iii) No bleaching/mercerising charges will be allowed for bleached/mercerised yarn if such yarn is used either in border or in the body of the cloth which is piece bleached/mercerised after weaving.

(iv) The claim for dyeing charge for yarn in Indo-carbon is subject to the condition that the depth of the shade shall not be less than 7% of the dye used on the weight of the yarn.

(v) In claiming dyeing charges for yarn in Sulphur black, mills should indicate the date of commencement of manufacture and the markets served by the sale of such fabrics.

(vi) In respect of Dhooties and Sarees having the same construction particulars but with a variety of borders utilising different shades of both Vat and Naphthol dyes and likewise Sucs and Shirtings containing coloured yarn having the same construction particulars with a variety of different shades and types of dye used in the dyed yarn in the fabrics, mills, for purpose of calculating the dyeing charges for yarn, may choose either of the following :

1. Prices may be stamped after calculating precisely the dyeing charges in respect of dyed yarn used in the border/fabrics according to the Schedule of processing charges for dyes specified above.

2. Mills may stamp a uniform price adopting an average price of dyeing charges at 340 paise per kg. of dyed yarn used in the borders of dhooties and/sarees and 285 paise per kg. for dyed yarn used in Sucs and Shirtings.

Sub-note : (i) Option shall be exercised one way or the other in respect of all varieties of dhooties and likewise of sarees, Sucs and shirtings. The declaration of choice once made cannot be changed during the pricing period. Any intention of change in succeeding period should be intimated in advance to the Textile Commissioner. The choice may be indicated in the 'C' Form and calculation proceeded to be done accordingly.

(ii) Averaging of yarn dyeing charges will not be permissible for yarn dyed in Sulphur black and/or cotton dyed yarn where the prescribed rates only will apply.

(vii) If any other class of dyes other than mentioned above are employed in dyeing the yarn, the prices will be fixed by the Textile Commissioner on application.

(viii) For deciding the depth of the shade of the dyed yarn/fabrics, manufacturers should strictly adhere to the limiting depths of light, medium and dark shades in accordance with the shade cards and calculate the price of yarn/fabrics by applying the shade cards in deciding the relevant depth of the shades and the corresponding charges.

(ix) For grandrelle yarn, if only one end is coloured the price element should be calculated for the weight of the coloured and ; if both ends are coloured in different shades, then, only an average of the price elements for the corresponding shades should be taken.

P. J. FERNANDES
Additional Textile Commissioner,
